

Timber Bins

Guaranteed quality, reliability and longevity

Tumu Timbers are one of NZ's largest suppliers of Timber Bins.

The industries we currently supply include:

- Apple
- Avocado
- Kiwifruit
- Light/Heavy Industrial
- Olive
- Onion
- Pelt/Hide
- Potato
- Squash
- Wine

We recognise the importance of producing high quality bins to meet the needs of our customers.

We manufacture a wide range of bins for both the domestic and export markets. We have a versatile range of standard bins or we can custom make a bin to suit your specific requirements.

Tanalised Radiata Pine & Plywood
1200 x 1200 x 765 mm

Nothing is too difficult for our innovative team so if you have a specific requirement, please contact us for a quote.

Timber Bins

Feature	Advantage	Benefit
Digitally graded timber bin components	Consistently accurate timber grading.	Greater bin board strength, quality and longevity.
	High level of grade flexibility.	Superior health and safety achieved due to structural integrity of the bin.
State of the art cutting capability	Precision, high speed cutting to exacting tolerances.	Enables highest quality assembly with precision componentry.
25 year guarantee (limited) provided for all tanalised bins which is backed by our chemical supplier	Bin timber is guaranteed (limited) for the life of the bin.	Sustainable product choice for bin longevity and optimal life cycle cost.
ISO 9001 Accredited manufacturing processes	Quality management systems control of all aspects of the manufacturing process.	Assurance that products will meet or exceed specification.
Automated bin base assembly and nailing including hydraulically inserted bin base board nails	Consistent nail depth.	Prevention of nail damage maximises fruit yield.
	Increased nail retention strength and consistent nail placement.	Ability to handle repeated forklift movements.
Corner posts with rounded top edge	No sharp edges inside the bin.	Reduction in fruit damage.
Corner posts with fine sawn finish	Smooth surface on internal face of corner post.	Reduction of abrasion blemishes on fruit.

Our preference is to source our timber from sustainable (FSC® registered) forests and sawmills.
